

## **Multi-Pet boarding form**

At Hill Country Pet Resort we offer a discount for additional pets who will be boarding together in the same run. You will save 20% off of the 2<sup>nd</sup> and 3<sup>rd</sup> pet's boarding rate, when boarded together.

Our requirements for boarding siblings in the same run/ cage together:

- Both pets must be of the same species. We do not put dogs and cats together in one run or cage.
- Pets cannot be food aggressive towards one another. Each pet will have their own bowl, but they will be fed together in the same run or cage. Attempts will be made to feed inside/outside the run to allow for some separation when eating, but if **ANY** aggression is shown, the dogs will be immediately separated for the remainder of their stay, and for any subsequent stays.
- If the pets do not get along together and conflict arises, Hill Country Pet Resort's staff will separate pets into two different runs/cages and owner will be responsible for the regular boarding rate for each pet

**Pets can get stressed out during boarding stays and show aggression toward one another even though they get along well at home. Owner assumes responsibility for any such aggression that his or her pets may develop towards one another. Owner assumes all financial responsibility of the cost of the treatment of the pet(s) should a medical emergency arise. Hill Country Pet Resort will attempt to contact the owner and emergency contact(s) as soon as possible should any issues arise.**
